

Steel carabiner specially designed for long-term placement in climbing gyms.

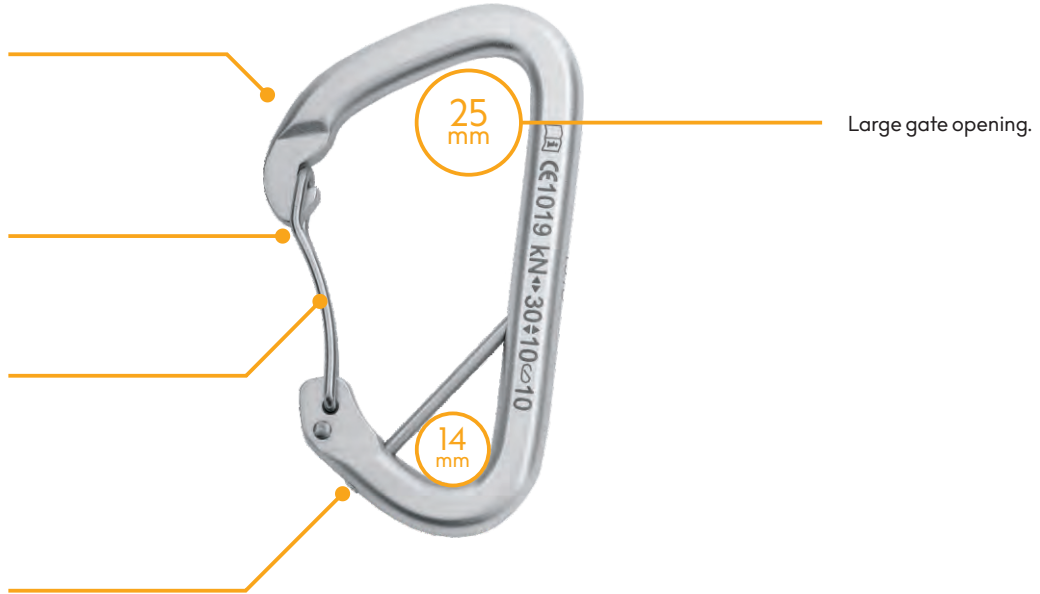

**DESCRIPTION**

Zinc-coated steel provides longer lifetime than light alloy carabiners.

Wire gate minimizes accidental opening of the gate.

Bent gate with large opening for easy rope clipping.

Captive bar prevents the twisting of the carabiner and loading across. Captive bar can be easily removed by an Allen key.

**KEY FEATURES**

- bent wire gate
- removable captive bar
- strength
- long life

**STANDARDS**

CE 1019  
EN 12275

**FEATURES**

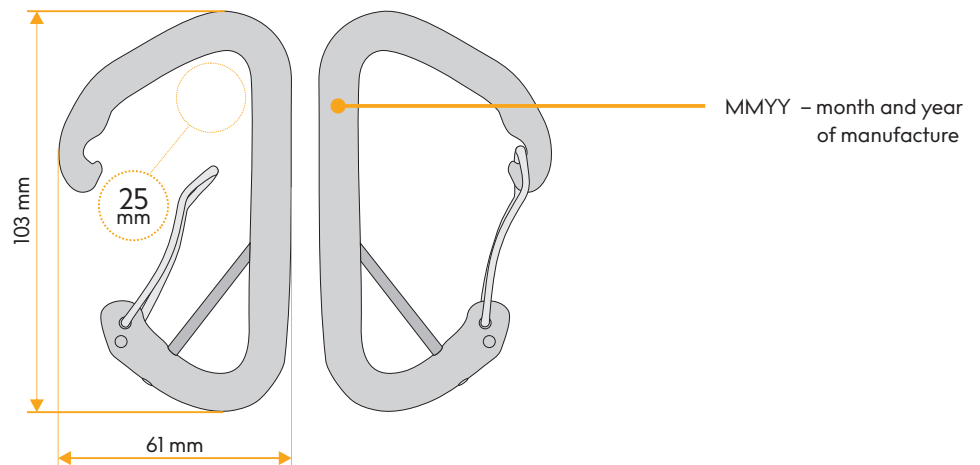

30 kN	10 kN	10 kN	25 mm	130 g	unique number	warranty

**MATERIALS**

- 90 % zinc-coated steel (body)
- 10 % stainless steel (wire gate, captive bar)

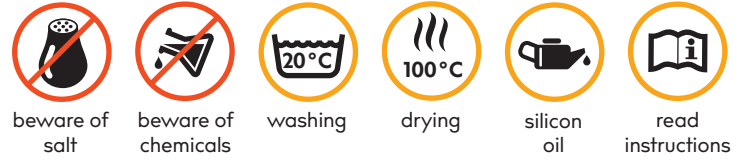

**TECHNICAL DATA**

### MAINTENANCE

Lifetime of this product is not strictly limited by the manufacturer. Depending on the condition of the product and its history it may be necessary to retire it immediately.

If needed lubricate the mobile components of metal parts with a silicone based lubricant (ensure, the lubricant does not come into contact with the textile parts).
