

Light ice axe designed for glacier tours and easy snow ascents in the mountains.

DESCRIPTION

Ice axe head ergonomically shaped especially for holding when walking. Holes in the head are big enough for attaching a carabiner.

Pick is made of durable chromoly steel and it easily penetrates even hard snow or alpine ice.

Three different lengths.

Hole in the spike is big enough for attaching a carabiner

Adze is designed for easy cutting of steps or snow platforms.

Classic straight shaft is made of high-quality 7075-class aluminium alloy.

Leash FIX included.
